Embracing The Life We Are Given

Recover a Sense of Belonging

From the scientific evidence available today, we know the world is more expansive and interconnected than anyone previously imagined. In down-to-earth terms, this study program will explore the shift that is taking place in our understanding of the world, the opportunities it presents to the human community, and the implication it has for people of faith. How do we develop a new intimacy with the world in which we live? Can we once again get caught up in the grandeur of existence and mysterious Divine power from which all this has emerged?

Our hope is to make sense of a world in transition. Our responsibility is to make something beautiful of it. Our dream is to find a meaningful home and a sense of belonging.
