COMMUNITY AND COMPASSION CREATING EMPATHY AND COMMUNITY

One important value our world is lacking today is a greater sense of empathy. Our world seems to be polarized leaving us in one camp or the other. Adults need intentional time to form community and to cultivate empathy. This retreat will be filled with community building activities, mindful listening, nature walks, introspection, small group reflection, and time serving our Earth side by side. A space and opportunity will be provided to form a deeper bond within the community and empathy for others on the retreat. This is a time to spark relationships and understanding that can be nurtured as the community grows.

OUR PLACE IN NATURE

This retreat will be a day for adults to recognize their roots in nature and their connection to the bigger world. They will have the opportunity to get their hands in the dirt while serving to maintain the food forest or wetlands. They will walk the cosmic journey trail and discover the beginning of time, listen to guided meditations, and mindfully seek out the smallest elements of creation around them. It will be a time of discovery, hands on service, introspection, and small group sharing, culminating in a new understanding for their place in this world.

TEAM BUILDING EXPERIENCE

Our team building course is set in the woods of our 27-acre nature preserve. We blend our mindfulness and meditation practices through experiential learning on the course in nature. It is a unique experience to stop and take breaths, becoming aware of our thoughts, feelings, and one another while challenging our communication habits. Adults are given the time and space to discover new tools for communication and experiences for bonding.
